

# BC School Fruit and Vegetable Nutritional Program

Includes +MILK for Grades K-2

## Fact Sheet

-  For 10 years, the BC School Fruit and Vegetable Nutritional program has helped to increase access to locally grown fresh fruits, vegetables and milk for children in the classroom.
-  8.2 million servings are delivered to 1,464 schools or nearly 90% of K-12 public and First Nations schools throughout British Columbia.
-  This program provides fresh fruits and vegetables from 526 growers to half a million students.
-  Since the 2013/14 school year milk has been provided through a partnership with the BC Dairy Association to 84,167 students in grades K-2 in 778 schools.
-  Deliveries occur every other week, 13 times during the school year.
-  The BC School Fruit and Vegetable Nutritional Program promotes BC grown produce, and key partners include the Overwaitea Food Group and Save-On-Foods, Saputo Canada and many other regional and local producers and distributors.
