

Fridge Program Grant Application

As a Public or First Nations school in BC, your school may be eligible to receive a grant to put towards the purchase of a refrigerator. Grants are awarded based on a school's need for adequate fridge space to promote healthy eating in your school.

The school may purchase a refrigerator from the supplier of their choice, and will be responsible for arranging its delivery and installation in the school. Fridges without freezers inside, and without ice makers and/or water dispensers on the door will ensure that you have as much room as possible for refrigeration purposes only. Schools that are awarded a Fridge Program Grant will be required to submit a copy of the refrigerator's purchase receipt to the Fridge Program c/o BC Agriculture in the Classroom Foundation. Receipts up to a value of \$1000 will be reimbursed to the school or the school district (not the PAC or an individual).

The school will assume responsibility for proper operation, maintenance, and repair of the fridge purchased.

To apply for a Fridge Program Grant, fully complete the form on the next page and return to:

**Laura McKenzie
BC Agriculture in the Classroom Foundation**

fax: 1-877-825-6068

Or

e-mail: laura@aitc.ca

**Please allow 2-3 weeks for applications to be processed.
Applications will only be processed from the beginning of
September - end of April.**

E-mail address			
Phone number			
School Population		Grade range	
		SD #	

Please describe the fridge space currently available at the school and explain the school's need for additional fridge space. Use a separate sheet of paper if necessary.

Please read carefully and sign below

As a representative of the above named school, the undersigned recognizes that grants will be awarded at the sole discretion of the Fridge Program partner organizations. As funding is limited, schools with the greatest need for fridge space will be given priority. If awarded a grant, the school accepts full responsibility for sourcing, ordering, set-up, operation, maintenance, and repair of the fridge. Any costs associated with running the refrigerator (e.g. electricity charges) are the responsibility of the school and/or school district. As owner of the refrigerator, the school acknowledges the BC Agriculture in the Classroom Foundation, its directors, officers, employees, and agents are in no way liable for any claims, costs, or expenses arising from the use, storage, or maintenance of the refrigerator. The school agrees to submit a copy of the fridge purchase receipt to BC AITC for reimbursement.
